

## TIRED OF SNORING?

- Do you snore, stop breathing or gasp for air while sleeping on your back?
- Does your snoring prevent you or your partner from enjoying a restful sleep?
- Do you suffer from constant daytime fatigue?
- **Did you know that sleeping on your side can be an effective treatment for your snoring and sleep apnea?**

## HOW IT WORKS...

**Positional Therapy** – also known as sleeping on your side – is the simplest, least intrusive remedy for snoring. This lateral position keeps your airway from collapsing. The Bumper Belt is designed to comfortably support you while you sleep on your side. You won't even notice you're wearing it!

**Three inflatable bumpers** attached to the belt extend outwards to create a gentle resistance, preventing you from rolling onto your back. They allow you to customize the amount of positional support, and deflate quickly for compact traveling.

**Pre-attached shoulder straps** prevent your belt from slipping and falling, and allow you to wear your belt high and loose around your chest.

**Our drawstring travel and wash pouch** allows you to keep up with treatment while traveling, and to wash your bumper belt without the Velcro damaging your clothing.

## WHAT DOCTORS ARE SAYING

*"Rematee is a wonderful solution and patients absolutely love it."*  
Dr. Rolf Majjer, BC

*"A REMATEE cut my remaining apneas by 97%, effectively eliminating the problem. It's a bargain and the customer service has been top notch. I'm a customer for life."*  
Dr. C. Frische, WA

*"Rematee is comfortable, and it works."*  
Dr. Thomas Phelps, TN

INFLATABLE BUMPERS

## A WORD FROM THE CREATOR...

I was informed how bad my snoring was in 1999 when my partner woke me with a swift jab in the arm. I had been sleeping on my back again... snoring up a storm, and she couldn't sleep. After several fruitless visits to leading sleep research centers any hope of finding a solution to my snoring seemed bleak. I could not find an effective treatment worth the discomfort and high cost.

Eventually, I realized that sleeping on my side significantly decreased my snoring and sleep apnea. To silence my obnoxious snoring and curb 160 nightly episodes of sleep apnea, I developed the Anti Snore Shirt to ensure I stayed on my side at night. Wearing the Anti Snore Shirt while sleeping has literally changed my life. Both my partner and I are now physically, mentally and emotionally sharper because we are finally getting a good night sleep.

CREATOR

BUMPER BELT

ANTI SNORE SHIRT

*"The first night my husband wore the REMATEE Anti Snore Shirt, I woke up and was shocked to see him sleeping on his side, totally quiet and perfectly still. Since then, the situation has not changed. Both of us are able to enjoy a restful sleep. It's good for him, good for me, and great for us!"*

SLEEP SOLUTIONS

## Sleeping on your side works

When you sleep on your back your airway can become blocked. Side sleeping counteracts gravity and prevents your airway from collapsing.

Rematee is a natural solution that works instantly
